Dear Dave:

I would like to take this opportunity to express my sincere appreciation to you and all of the crew at Shielding Dynamics for the exceptional service that you provided for our company. As you are aware, we were in a terrible situation due to the substandard quality of work done by the first contractor that shielded our room. Because of the leakage in the shielding, we turned to Shielding Dynamics for help.

Our opening date had been delayed over and over again because of new arising problems, and the leakage in the shielding seemed to have our hopes at rock bottom. Your staff reacted to our cries for help expeditiously and professionally. Our room was totally reshielded in record time and the results came out excellent. The difference in the quality of work provided by Shielding Dynamics was amazing, and we now have a professionally shielded room with absolutely no worries about future problems.

I would personally like to thank Bobby and Scott Crider for their performance in the shielding of our facility. It was very obvious that they are extremely knowledgeable about their profession, and I am confident that we had the best in the business here to get us through.

Once again, our thanks to everyone at Shielding Dynamics. I doubt that we would even be open today if you would not have been so ready and willing to help us. As it is, we are up and running, and our images are beautiful!! We are currently planning to open several new facilities in the near future, and your company will be at the top of our list for the shielding.

I would recommend Shielding Dynamics to anyone, and will be more than happy to give a reference at any time. All you have to do is call!!

Sincerely,
