RE: RF Shielding Installation

Dave Wernick,

I wish to take this opportunity to thank you and your firm for your diligence in the timely completion of the RF shielding design and installation in the MRI suite at this facility. You were aware of our urgency in the installation of the RF shielding and through your cooperation and professionalism, we were able to realize our objective on schedule.

The final inspection of the MRI suite testifies to the quality of product you have furnished and is assurance that all the specification requirements have been accomplished. Continue to perform with the same professional attitude and may Shielding Dynamics have much success in future projects.

Sincerely,
